

# **Clear Diamond Water**

## **Installation Instructions:**

Twin Polaris 4.5:

1. Remove product from box.
  2. Shut off main water line.
  3. Discount water line or split the water pipes a total of 20 inches.
  4. Mount the filter to the wall using the mounting bracket provided with the filter unit.
  5. Add pipe connection between the outlet side of the filter and the cold side of the water source.
  6. Add connection pipe between the two housings.
  7. Mount second housing to the wall.
  8. Connect the existing water line to the inlet side of the filter housing.
  9. Insert both filters into the clear canisters.
- 
1. Turn on the main water line and check for water leaks.
  2. Disregard the first glass of water.
  3. Water is now ready for drinking.
